

# JUSTICE FOR YOUTH

**J**ustice For Youth exists to bring hope to children and youth around the world victimized by human trafficking, poverty, homelessness, HIV-AIDS or other life threatening diseases. Our current projects in Eastern Europe include:

**Adopt a School:** posters and seminars for at risk students in Moldova and Ukraine.

**Plant a School:** supporting an initiative to start 3,000 pre-schools in at risk areas in the former Soviet Union.

**Summer Camps:** mentoring and encouraging at risk youth in a fun, non-threatening environment.

Our long term commitment includes extensive mass media campaigns, partnerships for job creation and crisis counseling for victims.

## We Believe Something Must Be Done To Stop Human Trafficking

Human trafficking of women and children is the fastest growing crime of the 21<sup>st</sup> century. The victims are typically teenage girls (in many cases, pre-teens) who are either abducted, recruited, or seduced—and then forced into sexual slavery. Eastern Europe is a world leader in international exportation of sex slaves.

Help us stop this vicious exploitation of youth. Join us in our strategy to rescue these young people before they are taken captive.

Our Adopt A School campaign engages schools and orphanages in Moldova and Ukraine with seminars, providing vital information warning those who are most at risk.

Drop by our website and find out how YOU can be involved in stopping modern day slavery before it starts!
